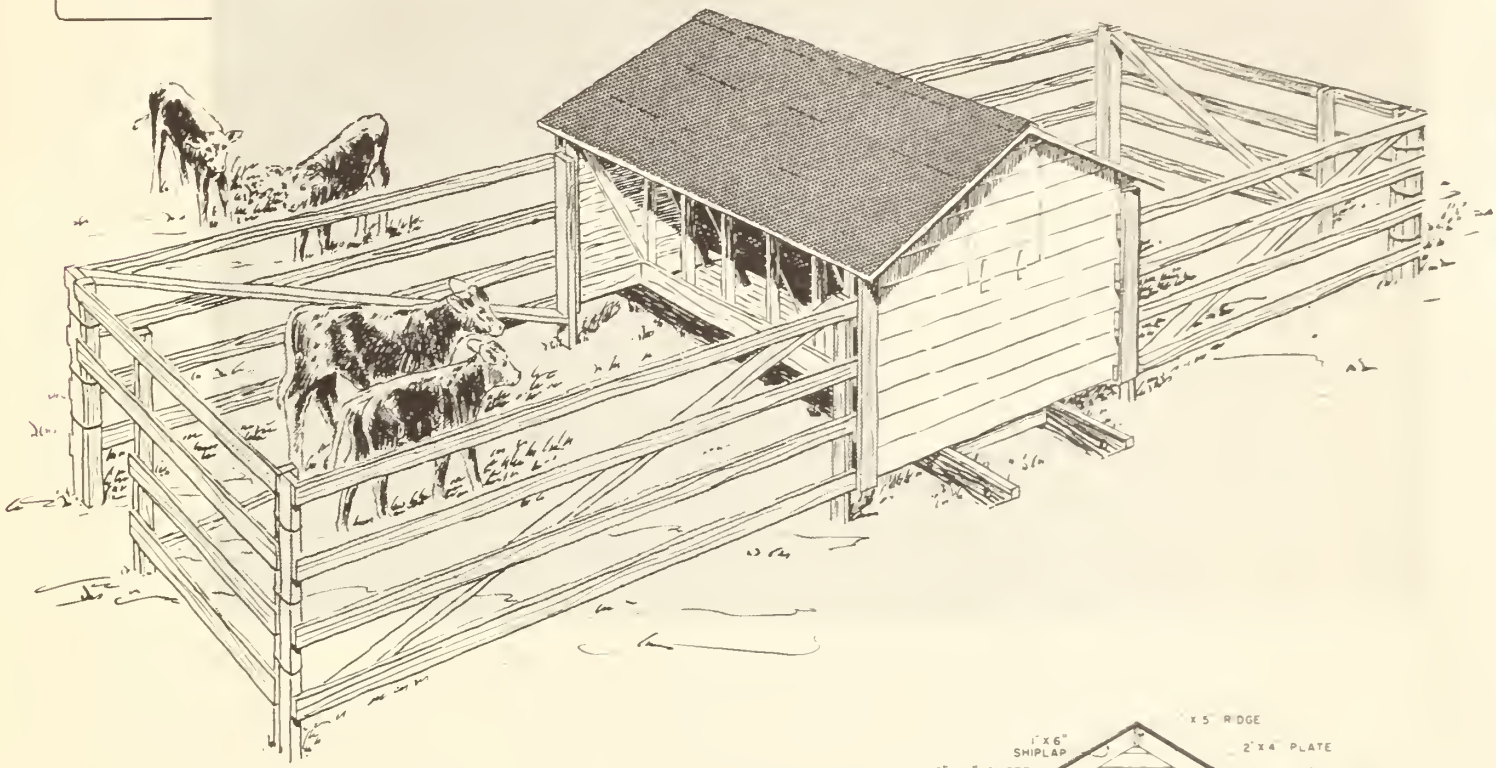
FARM BUILDING

PLAN NO. 5763

(1 SHEET)

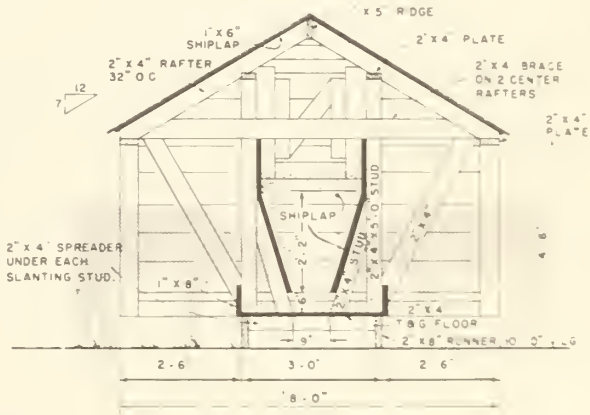
MOVABLE CALF FEEDER with attached creep



35-bushel capacity --- for about 30 calves

This calf feeder may be filled with grain or ground feed through the end doors without entering the enclosure.

The creep fence is made in sections that are supported by the feeder and wired to corner stakes. This arrangement permits the fence to be easily taken down for moving.



CROSS SECTION

A more complete plan may be obtained through your county agent or from the Extension agricultural engineer at most State agricultural colleges. There is usually a small charge.

ORDER PLAN NO. 5763, MOVABLE CALF FEEDER WITH ATTACHED CREEP

If working drawings of this plan are not available in your State, write to the U. S. Department of Agriculture, Agricultural Engineering Research Division, Plant Industry Station, Beltsville, Md. The U. S. Department of Agriculture does not distribute drawings, but will direct you to a State that does distribute them.
